Conference Chair Message

Farooq Ahmed Jam (Ph.D.)

2nd International Conference on Challenges in Social Science Research (CSSR-2018)” serves as platform that aims to help the scholarly community across nations to explore the critical role of multidisciplinary innovations for sustainability and growth of human societies. This conference provides opportunity to the academicians, practitioners, scientists, and scholars from across various disciplines to discuss avenues for interdisciplinary innovations and identify effective ways to address the regional and global challenges faced by our societies. The research ideas and studies that we received for this conference are very promising, unique, and impactful. I believe, these studies have the potential to address key challenges in various sub-domains of social sciences and applied sciences. The scholars attending this conference will certainly find it helpful in refining their own research ideas, finding solutions to basic/applied problems they face and interact with other renowned scholars for possible future collaborations.

I am really thankful to our honourable scientific and review committee for spending much of their time in reviewing the papers for this event, selecting the best paper awards and helping the participants in publishing their research in affiliated journals. Also special thanks to all the session chairs from industry, academia and policy-making institutions who volunteered their time and support to make this event a success.

A very special thanks to the great scholars for being here with us as key note speakers. Their valuable thoughts will surely open the horizon of new research and practice for the conference participants coming from across the globe. I am also thankful to all the participants for being here with us to create an environment of knowledge sharing and learning. We the scholars of this world belong to the elite educated class of this society and we owe a lot to return back to this society. Let’s break all the discriminating barriers and get free from all minor affiliations. Let’s contribute even a little or single step for betterment of society and welfare of humanity to bring prosperity, peace and harmony in this world. Stay blessed.

Type of CSSR Papers

For this year, CSSR has two types of papers: Empirical Studies and Insight. Research papers meet the needs of researcher and reviewed on the basis of highest academic standards. The objective of the academic paper is to contribute in the scientific body of knowledge. Contrary, Inside papers meet the needs of policy makers and professionals and reviewed on the basis of high practical standards. The objective of the Insight is to identify the real world problems and how can solve with the help of information systems.
Reviewing Criteria

In CSSR all papers are used to judge on the criteria (relevance, significance, originality, validity and clarity). However some criteria differ between the Research papers and Insight papers.

*Relevancy:* Relevancy has a great impact on the theme of the conference. The material is relevant and according to the theme of the conference.

*Significance:* Knowledge in different researches in the conference is related to research papers and insight papers.

*Originality:* Ideas that are new for the researchers are used in the conference.

*Validity:* Research papers in the conference are based on theory while the insight papers in the research are based on experimental researches. References are according to content.

*Clarity:* Papers are according to the format, language is easy and understandable by the audience in the conference.

Copy right Agreements

In CSSR 2018 proceedings all authors are agreed on the copy right agreement. This agreement shows that only authors can retain copyright. It also permits that nobody can use for non-commercial purpose such as to download, print out etc of an article published in the CSSR 2018 proceedings. All credit is given to the authors and they have copyright agreements. This copyright agreement and use license ensures, among other things, that an article will be as widely available as possible and that the article can be included in any scientific archive.
Acknowledgment

A huge numbers of people helped in conducting the conferences. First of all thanks to all the members of the Conference and Program Committee and representatives of the CSSR board and their helpers. We also want to thank all the Track Chairs, Track Co-Chairs and reviewers, as well as all the member of the Scientific Committee for their help in the review process and organizing the tracks and special sessions. We thank everyone for their hard work and dedication to this conference and we look forward to the latest episode of the CSSR tradition.

Farooq Ahmed Jam (Ph.D.), Tariq Iqbal Khan (Ph.D.) and Muhammad Abbas (Ph.D.)

CSSR 2018 Keynote Speakers

Dr Muruganantham Ganesan

Dr. Muruganantham Ganesan is working as Associate Professor in Management Studies at National Institute of Technology, Tiruchirappali, India. He has a blend of experience in corporates and also academic experience with renowned institutes. He is having 17 Years of Professional Experience. His areas of interest in teaching, research and consultancy includes Brand Management, Consumer Behaviour, Marketing and Advertising insights. He has received the best paper awards for presenting his research paper in USA, London, and India. His research works are available at Emerald, Inderscience and Taylor & Francis publications. He is an excellent Trainer and Motivational Speaker.

Dr. Tuhin Ghosh

Dr. Tuhin Ghosh has started his career as a coastal geomorphologist, gradually turned into an ICZM practitioner, engaged with the human-environment relationship. He is presently involved as the Country Lead of a multi-country research consortium ‘DECCMA’ after successful completion of ‘ESPA Delta’ (www.espadelta.net) and ‘Deltas’ project of Belmont Forum (delta.umn.edu). His current research interests are climate change impacts, adaptation strategies and human migrations, besides coastal geomorphology and Disaster Management.

At present, he is the Country PI (India) in a multi-country international research consortium ‘DECCMA’, exploring the climate change impacts, adaptation and migration in the deltas in Africa and Asia, working on the Ganges delta and Mahanadi delta in India.

Natural Hazards Management is his another area of interest and recently published a book from Sage Publishing with his co-author Dr. Indrajit Pal based at Asian Institute of Technology, Thailand.

He has long experience (~ 25 years) in GBM-India, GBM-Bangladesh and Mahanadi delta (India) particularly in the following domains –Vulnerability assessment and climate hotspot mapping LULC dynamics and geomorphic changes within the delta, along with environmental displacement and resettlement

The linkage between climate impacts, depletion in ecosystem services, loss in livelihood, consequent adaptation and resultant human migration. Policy analysis, governance and stakeholder inclusiveness, incorporating community and NGOs/CBOs. Extraction of traditional and indigenous local knowledge, with RiU convergence. Preparedness and mitigation strategies, protection from the loss & damage due to extreme weather events.
